

**LOGICAL FINANCIAL MANAGEMENT**  
INSURANCE BROKERS • Your Peace of Mind is Our Priority

**We provide this checklist as service for our clients to assist in calculating the right amount of home contents insurance. You should always seek professional valuation advice where appropriate.**

***How to complete the checklist.***

The checklist groups home contents into sections, all you need to do is estimate the value of your contents for each section and write it in. Many home contents insurance policies are based on replacement also known as “new for old” wordings. Therefore, when calculating your contents, you should ensure replacement costs are reflected. It is also a good idea to photograph your contents as well as detail model and serial numbers of electrical items. In that way, you’ll have an accurate record of your contents. The checklist and photos should be stored away from the home. It is suggested that the list is reviewed periodically to include new items as they are purchased.

***Valuable items.***

It is important to specify valuable items separately, particularly jewellery and works of art/antiques, as your policy may limit the amount covered for any unspecified items. Please contact us if you have any questions or refer to the relevant policy wording.

## **CONTENTS CHECKLIST**

### **Furniture**

Dining Room	\$ _____
Lounge Room	\$ _____
Bedrooms	\$ _____
General	\$ _____
<b>Total Furniture</b>	<b>\$ _____</b>
